INTERESTS

DESIGING PROTOTYPES AND APPS BY USING FIGMA

Reading tech blogs and Participating in hackathons and coding competitions .Traveling and exploring new cultures .Playing badminton .Listening to music

PROJECTS

HEARTUNE, *MUSIC BEYOND WORDS!*

07/2025 – 08/2025

It was an design app which was build in figma.
In this we have to see our content easily and make the music play by our intrests.Basically it was my first figma project.

SECURE STREAM, *SAFE OTT APP FOR KIDS!*

06/2025 – 08/2025

Basically it was an ott app specially designed for kids.Because they may see the ott which was in 18+ genre ⬚ .So we are geberated an ott platform which was more saftey to kis and it will open by using aadhar type method only like fingerprint sensor.

JUICY MOCKUP, *WHERE THE TASTE MEETS!*

08/2025 – 08/2025

This was made by using animations in figma.
I used lot of animations to make it out!
It was an mockup to see the glances of the drinks which was neatly animated and easy to see the details more.

FOOD DELIVERY

09/2025 – 09/2025

- Designed a **Food Delivery App UI in Figma** with interactive prototypes, responsive layouts, and reusable components.
- Created **user flows and high-fidelity mockups** focusing on smooth navigation and engaging user experience.

SKILLS

Technical Skills

- UI/UX Tools: Figma, Adobe XD, Canva (prototyping & wireframing)
- Design: Wireframing, Prototyping, User Flows, Information Architecture
- Research: User Research, Usability Testing, Feedback Analysis
- Development Basics: HTML, CSS, JavaScript (front-end fundamentals)
- Other Tech: Machine Learning, AI concepts, Python, Database Systems

Soft Skills

- Creativity & Problem Solving
- Communication & Team Collaboration
- Time Management
- Adaptability & Continuous Learning

CERTIFICATES

Palo Alto Cybersecurity Virtual Internship (Cohort 8)
Gained practical knowledge in network security, firewalls, and cybersecurity fundamentals.
Google AI–ML Virtual Internship (Cohort 9) Explored AI and Machine Learning concepts, including supervised learning, model evaluation, and practical applications.
Google Android Developer Virtual Internship (Cohort 10)
Acquired hands-on experience in Android app development, UI design, and debugging.
AWS Data Engineering Virtual Internship (Cohort 11)
Learned data pipelines, ETL processes, and cloud-based data engineering using AWS services.
Google Cloud Generative AI Virtual Internship (Cohort 12)
Worked with generative AI, large language models, and their applications in cloud environments.
